# Seaport-e (Seaport Enhanced)

ENGINEERING, TECHNICAL, AND PROGRAMMATIC SUPPORT SERVICES

**CONTRACT NUMBER: N00178-14-D-7573**
**PERIOD OF PERFORMANCE: NOVEMBER 19,2013 - APRIL 14, 2019**
                           **(INCLUDING OPTION PERIODS)**

The SeaPort-e contract combines the benefits of a truly paperless, electronic procurement system with contracting best practices. This indefinite delivery, indefinite quantity (IDIQ) multiple-award contract (MAC) allows the Virtual SYSCOM, as well as Commander, Naval Installations, and the US Marine Corps to acquire a wide range of engineering, technical, and programmatic services and solutions. SeaPort-e furthers the Navy's objective to increase efficiency and allows for tailoring services according to the needs of geographically dispersed organizations with significantly diverse product area requirements and missions.

# Benefits and Features of SeaPort-e

Authorized users include all warranted contracting officers of Naval Sea Systems Command (NAVSEA), Naval Air Systems Command (NAVAIR), Space and Naval Warfare Systems Command (SPAWAR), Naval Supply Systems Command (NAVSUP), Military Sealift Command, Strategic Systems Program (SSP), Naval Facilities Engineering Command (NAVFAC), Office of Naval Research, and the US Marine Corps. SeaPort-e is the mandatory contract vehicle for the Virtual SYSCOM for engineering, program management, and financial management services.

- ♦ **Firm fixed price and cost reimbursable task orders are permitted**
- ♦ **There is no fee to authorized users**
- ♦ **Prime contract holders may add an unlimited number of small or large business partners to their teams**
- ♦ **There are currently more than 2,000 prime contract holders with a once per year rolling admissions period to add new prime contracts**

# Seaport-e (Seaport Enhanced)

ENGINEERING, TECHNICAL, AND PROGRAMMATIC SUPPORT SERVICES

♦ **Procurement is competitive – All prime contract holders have a fair opportunity to compete (FOTC).**

♦ **Task order solicitations may be set aside for small businesses, and individual task orders may include subcontracting goals.**

♦ **The contract covers 22 functional areas and 7 geographic zones. The zone system preserves the local vendor base and companies must have an established presence in a zone to bid on tasks.**

## DELIVERING SOLUTIONS TO SEAPORT-E CUSTOMERS

**We are committed to making SeaPort-e our premier vehicle for delivering engineering, technical, and programmatic services and solutions to the US Navy and Marine Corps market.  Through SeaPort-e, YADARI offers a collaborative teaming approach ensuring a partnership that will serve its SeaPort-e customers from inception through implementation and maintenance utilizing:**

♦ **A mission-driven approach to teaming that matches task-order-specific customer requirements to our teaming partners to resolve the business and technical issues facing SeaPort-e clients**

♦ **Demonstrated experience in delivering high-quality solutions in all SeaPort-e functional areas, offering engineering, technical, financial, and programmatic services**

♦ **Dedicated program support and leadership through our SeaPort-e Program Business Office. Our resources provide streamlined yet thorough support for your contracting needs; from requirement to solution**

## HOW TO USE SEAPORT-E

The SeaPort-e procurement process is entirely electronic—from RFP submission to delivery of the awarded task order to the successful bidder. To learn more, please visit the SeaPort-e portal at http://www.seaport.navy.mil/index.html. Summary features of the process include:

♦ Task order solicitations, modifications, and awards are released through the SeaPort-e portal

♦ All proposals are submitted electronically through the portal

♦ Task order award and execution is decentralized and performed by the ordering activity's contracting shop
